## Union Park District

The **Union Park District Council** (District 13) is made up of the Merriam Park, Snelling Hamline, and Lexington-Hamline neighborhoods.

Formed in 2007 when these three well-established district councils combined, the new district council was named Union Park in 2008 to suggest the merger and the area's historical connection to the former Union Park (now Iris Park) along University Ave.

## How Far Is It?

Biking and walking for shopping or errands are great opportunities to integrate physical activity into your daily routine.

A 150 lb. adult burns around **235 calories per hour** walking (at 3 mph) and about **500 calories per hour** biking (at 10 mph).

The drawings below show how long it takes to bike or walk between landmarks. **What could you walk or bike to?**

## Sidewalk Poetry

**Everyday Poems for City Sidewalk** is a project created by Saint Paul's Public Artist in Residence, Marcus Young and friends, Saint Paul Public Works, and Public Art Saint Paul. The project works in tandem with the city's sidewalk maintenance program and installs poetry where city sidewalks are replaced.

Use the map and the icons on **panels B4 and B5** to find sidewalk poetry. Also keep an eye out for new additions – poems are being added all the time!
